

Manual Water-Activated Tape Dispenser

Better Pack® **333** Plus World's #1 Manual WAT Dispenser

More companies and government agencies around the world have chosen this rugged and easy-to-use manual dispenser over any other brand for their carton sealing needs. The Better Pack 333 Plus is built to last and is engineered to provide many years of consistent, reliable performance. This dispenser is perfect for use in light- to medium-volume packaging areas and can be used with either reinforced or non-reinforced water-activated tape.

Rugged Engineering, Superior Quality and Performance

- Steel side frame construction ensures durability and long life
- Two water brushes provide consistent, uniform wetting of adhesive
- Superior mechanics and guillotine blade deliver clean, even cutting of reinforced and non-reinforced tape

Easy to Operate, Simple to Maintain

- Large water reservoir means fewer refills and less downtime
- Portable dispenser requires no electricity, moves easily from one packaging line to another
- Quickly choose one of 15 preset tape lengths on clearly marked dial

Environmentally Responsible

- Reduce tape waste by dispensing exact amount needed
- Only one strip of water-activated tape is needed for a secure, strong seal
- Maximize performance with recyclable, biodegradable Better Pack Tape, made from renewable resources
- One Better Pack 333 Plus can potentially replace 64* handheld plastic tape guns

*Based on the average 3-month life expectancy of a handheld plastic tape gun, one carton sealing professional will use and discard approximately 64, non-recyclable tape guns. Better Pack dispensers have an expected lifespan of 16 to 20 years.

Carton sealed with Better Pack Tape and the BP 333 Plus

Options to Optimize Performance and Efficiency

Optional accessories can be purchased to optimize the performance of the Better Pack 333 Plus. Also, when using 100% recyclable water-activated tape, such as Better Pack Tape from Better Packages, the Better Pack 333 Plus is the ultimate environmentally responsible choice for sealing cartons.

Top Heater Accessory (requires electricity)

- Heats water to optimize tape's adhesive properties
- Excellent for use in chilly shipping environments

Tape Aerial Accessory

- No need to wrestle with long lengths of tape—just grab and apply
- Creases tape for easier handling and placement
- Simplifies and speeds up the packaging process
