

UChannel®

A New Shape in Window and Door Packaging

Three-sided edge protection for safe transport through your distribution channel

UChannel offers a highly durable, very cost-effective option that safely protects windows and doors until they arrive at their final destination. Its single-piece construction can be formed to provide a wide variety of widths and leg lengths, offering the ultimate in customized choices for window and door edge protection.

UChannel is an innovative solution created to meet the precise needs of window and door manufacturers.

UChannel is sustainable packaging that provides highly effective protection without excess packaging.

Paper widths of up to 18 inches can be formed into virtually any combination of base sizes, leg sizes and leg lengths, including asymmetrical combinations.

When ordering UChannel, please specify:

- ① leg size (height)
- ② base size (width)
- ③ wall caliper (thickness): available in calipers of 0.080 to 0.600 inches
- ④ lengths: standard lengths available up to 300 inches; special-order lengths available

- Ideal for protecting all types and shapes of windows and doors, including garage doors
- Cost- and time-saving substitute for expensive wood crates or hard-to-handle corrugate
- Easy for workers to apply and remove
- Produced on state-of-the-art equipment to ensure fast turnaround and the highest-quality results
- Offered with a wide range of high-quality printing options: add your own logo or message
- Recyclable and environmentally friendly: a sustainable solution for your transport packaging needs
- Contact your local sales representative for samples
