

AMT-58

Manual Combination Tool for Plastic Strapping

Easy to operate

- Tensioning and sealing functions require minimal effort
- Reduces operator fatigue
- Lightweight
- Seals load in magazines, eliminating reloading after each cycle

Reliable

- Produces a crimp joint for maximum joint strength

Versatile

- Ideal for lumber, brick or printing applications

Durable

All metal and alloy parts provide long-lasting, low-maintenance operation.

Specifications:

Strapping:

For use on 5/8" (16 mm) High-Strength Tenax plastic strapping.

Tension: Up to 400 lbs. (1780 N)

Joint Type: Crimp

Seal: 58 AMT

Weight: 14 lbs. (6.4 kg)
