

# PERFBoard

ENGINEERED SOLUTIONS

Create the ideal-height edge protection in a snap with the perforated convenience of new PerfBoard™, the perfect fit for any application.

## *Perforated protection that fits your job, budget and warehouse space*

- Perforated legs provide easy layer separation
- Sections can be sectioned by hand or machine to quickly create ideal-sized edge protection in any situation
- Safe for partial shipments and irregular-sized loads
- Standard leg lengths up to 4" x 4", with custom sizes available; calipers to .160
- Save warehouse space by stocking one SKU for multiple lengths
- Designed for use with automated pallet assembly systems
- Can be custom-printed: add your logo, message or instructions
- Recyclable and environmentally friendly

*PerfBoard™ provides stackability and protection with the added convenience of perforated legs for easy layer separation*

*Sections can be quickly portioned by hand*
